

CANADIAN SOCIAL WORK STUDENT EXPERIENCES IN FIELD EDUCATION DURING COVID-19

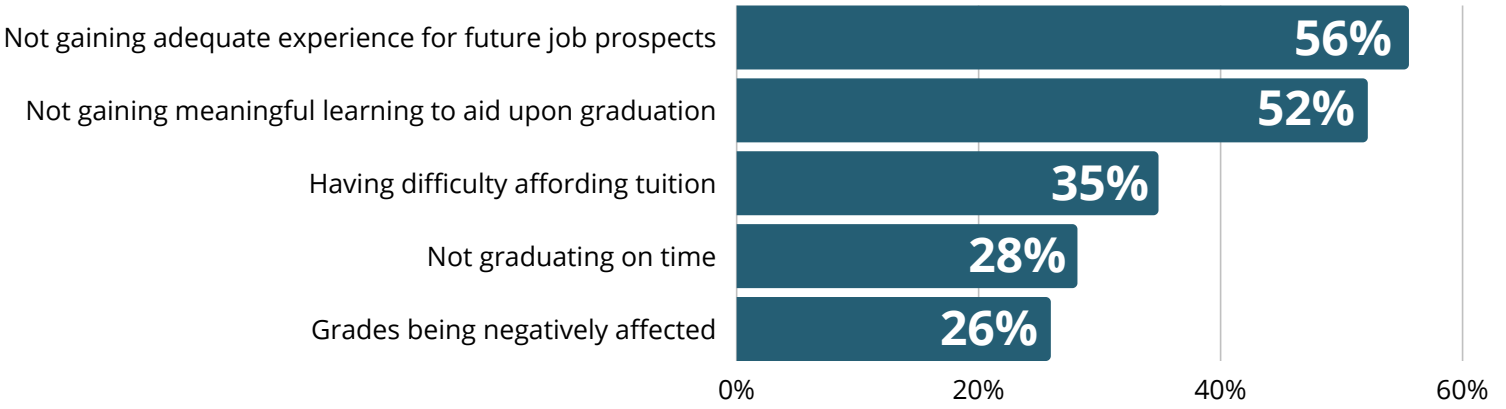

OVERALL COVID-19 IMPACTS

Percentage of respondents with the following impacts of COVID-19 on field education

STUDENT CONCERNS

Percentage of respondents "very concerned" or "extremely concerned" about:

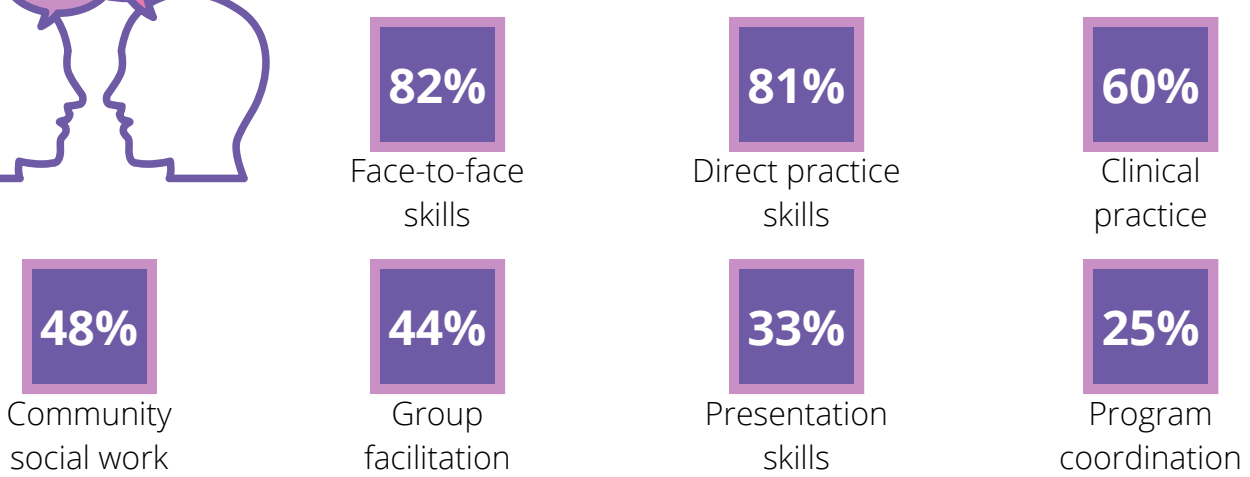

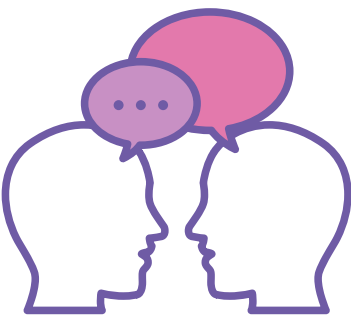

STUDENT NEEDS

Respondents ranked their top three needs as:

- 1** Flexible learning plans, hours, and accommodations 
- 2** Supportive and accessible supervision 
- 3** Prioritization of health and safety 

MISSED SKILLS

Percentage of students concerned about missing skills due to having practicum during COVID-19

Based on a Canada-wide survey of Bachelor and Master of Social Work students in July 2020 with 367 respondents

CANADIAN SOCIAL WORK STUDENT EXPERIENCES IN FIELD EDUCATION DURING COVID-19

UNANTICIPATED BENEFITS

Percentage of respondents noting unanticipated benefits of skills gained while having a practicum during COVID-19

LIKERT-TYPE DATA

Percentage of respondents who "strongly agree" or "agree" versus those who "strongly disagree" or "disagree"

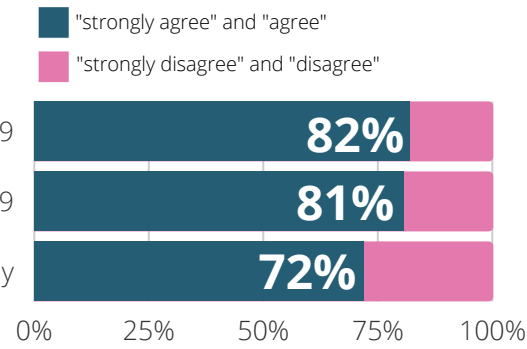

Institutional Response

Leaders at my institution are making effective decisions regarding COVID-19

My institution has provided information and resources to work safely during COVID-19

My institution is adequately prepared to work remotely

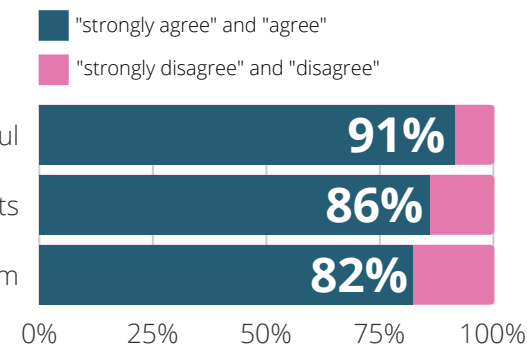

Supervision

If I have questions or concerns, my supervisor(s) are readily available and helpful

Supervision holds me accountable to complete my practicum requirements

I am satisfied with the level of supervision I am receiving during practicum

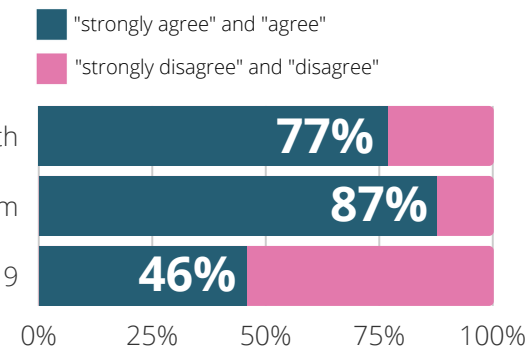

Mental Health

Social distancing/isolation is negatively impacting my mental health

I am encouraged to practice self-care through my practicum

My institution has enough resources to support mental health issues related to COVID-19

Technological Support

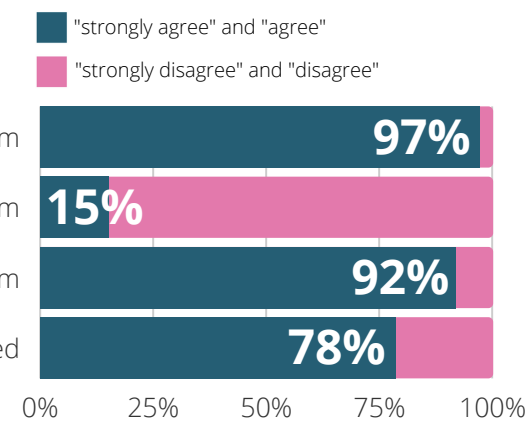

Technology has been an essential resource for me when completing my practicum

Technology is a major obstacle for me when completing my practicum

I have access to the technology required to complete my practicum

I have received satisfactory training to manage the technology required

Based on a Canada-wide survey of Bachelor and Master of Social Work students in July 2020 with 367 respondents
